

Dear Friends,

We are the Fein family, and we're eager to share how Crohn's disease has impacted our lives. As a united front, we are committed to putting an end to this debilitating illness, and your support can make a real difference. Allow us to introduce ourselves:

I'm Adam Fein and I am beginning my senior year of high school this Fall. I was diagnosed with Crohn's disease at 10 years old and still have stomach pain many days. Soon I will be becoming an adult and would like for Crohn's to not be a part of my future.

I'm John Fein, also known as Adam's dad. I can't believe Adam will be graduating from high school in 2026. He has come so far and yet it feels like we have so far to go. I was also diagnosed with Crohn's disease in December of 2023 so we have double the family incentive to find a cure.

And I'm Amy Fein, Adam's mom and John's wife. Witnessing Adam's struggles over the past six years has been incredibly challenging. Sending him off to college scares me and it will be difficult not being there when his disease is flaring up. Watching John go through the same painful symptoms is also extremely hard. We are more determined than ever to eradicate this disease.

Last year, our euchre tournament drew 300 participants, and we are proud to report we have raised \$283,625 for the Crohn's and Colitis Foundation over the past six years!

We are reaching out to request your sponsorship for our event this November 8th, which holds immense significance for our family. Your contribution would mean the world to us, with 100% of the proceeds going directly to the Crohn's and Colitis Foundation to support vital research efforts.

Thank you for your consideration.

Sincerely,

Amy, John, and Adam
